Our Portfolio

We have worked with a number of businesses across the globe over the last 9 years & have successfully delivered over **160+ projects.** We will be able to bring to bear this depth of experience for the benefit of clients we have associated with. As a company, we are committed to delivering true value to our client and build a sustainable relationship based on honesty & fairness.

SOME OF OUR HIGHLIGHTED WORKS

	Kerala Startup Mission, The nodal agency of Government of Kerala for entrepreneurship development and incubation activities in Kerala, India. It helps in creation of the infrastructure and environment required for promoting high technology based business activities. Our web based solution helps them to do all the workflow related to startupmission under a single portal.
	ICFOSS, An Autonomous Institution under the Government of Kerala, mandated with the objectives of coordinating FOSS Initiatives. Our solution help them to do all the workflow related ICFOSS under a single portal.
	The Kerala Public Enterprises Selection Board [KPESB] is a body constituted by Government of Kerala. The KPESB has been set up with the objective of evolving a sound managerial policy for the State Public Sector Undertakings and, in particular, to advise Government on appointments to their top management posts.
	The corporate website of **ICT Academy of Kerala.** An organization focused for the delivery of industry oriented training to the technical institutions in Kerala. This website is also having an online e-learning platform called Paatshala, which is also developed by our team.

Our Portfolio

SHELTERLUV	**Shelter Luv,** an Adoption Shelter Solution for animals. The project was started with the mission of ending the population-based euthanasia of companion animals by delivering world-class software to shelters and rescues to help them work faster and more efficiently and to save more animals with their existing infrastructure. We provide complete technical support for them to maintain their solution.
BEISSBARTH	**Beissbarth,** an equipment provider for OEM car manufacturers and IAM automotive workshops worldwide. We provide technical support for their software solutions for various equipment.
METRO360	**Metro360,** a hyperlocal facility management solution which helps to connect the public with the nearby skilled resources. We developed a complete web portal and back end application for the solution. Also, developed a mobile application for the solution in both IOS and Android.
Snap-on	**Snap-on Equipment Germany,** is a leading global developer, manufacturer, and marketer of high-end tools and equipment solution for professional use in the transportation industry. We provide complete technical support to Snapon in implementing Automatic Vehicle Fitness Station in Kerala.
RIAB	**RIAB,** a body constituted by Government of Kerala to moniter, analyse and review the State Level Public Enterprises (SLPEs) . Development of State owned Enterprises Monitoring Application for RIAB is intended to work as a tool for monitoring state owned enterprises from the reports submitted by the companies through this application.

Our Clients

We serve small, medium and enterprise-level companies coming from 9 countries and a wide range of industries, including (but not limited to):

- Healthcare
- eCommerce
- Hospitality
- Fintech
- Travel
- Smart Homes
